💼 Sathwik's Portfolio Website

Welcome to my personal portfolio! This site is built using HTML and CSS to showcase my profile, skills, achievements, and contact information. It's a compact and clean website aimed at representing my professional and personal interests.

✳️ Overview

This portfolio includes:

- A brief **introduction** about myself
- A section for **skills** and tools I work with
- A display of my **achievements**
- My **contact** information
- Navigation across all sections through a clean homepage

🗂️ File Structure

📁 Portfolio/ ├── TEST.html # Main Homepage ├── ABOUTME.html # About Me Section ├── achievements.html # Achievements Section ├── contact.html # Contact Details ├── myskills.html # Skills Showcase └── styleS.css #

💡 Features

- Responsive layout using Flexbox
- Clean and modern gradients with legible typography
- Organized and separated sections for better readability
- External links to my certifications, skills, and LinkedIn profile
